

School-Based Health Centers

The Intersection of Health and Education

Health is a critical factor in setting our children up for success inside and outside of school. School-based health centers (SBHCs) increase access to health care, contribute to positive educational outcomes, reduce emergency room use, lower Medicaid costs, and expand access to mental health services.

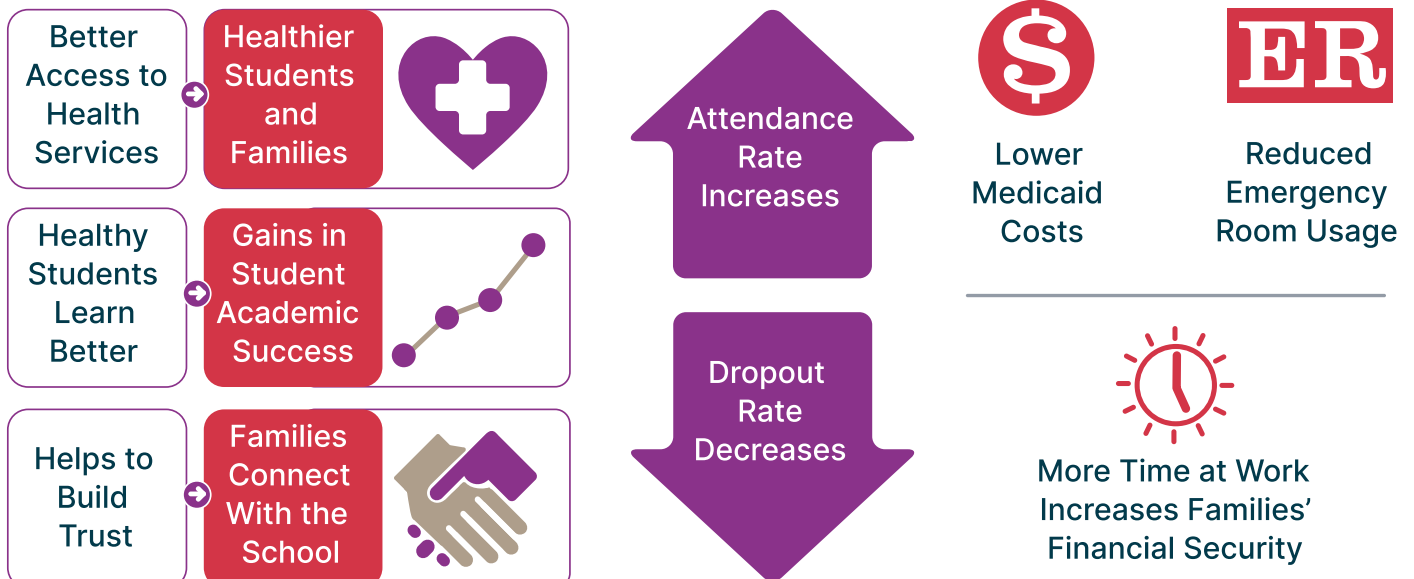

Healthy Benefits

Services that SBHCs Provide

Healthy Impacts

Health Supports Successful Students & Families

Healthy Partnerships

Delivering Health Services to Underserved Communities

Most school-based health centers are operated by an external medical sponsoring agency.

Federally Qualified Health Centers

Hospitals

Nonprofit or Community-Based Organizations
